RENDING THE VEIL, by V. Manley Ayers

YOU ARE PRAYING INTELLECTUALLY, NOT SPIRITUALLY

1. If you clamp your mind like a vise on the ideal you would demonstrate.
2. If you have attention on results, not Causes.
3. If you are trying hard, instead of letting God work.
4. If you are forcing the situation by using personal "will-power."
5. If you are trying to impress yourself, some other mind, or God.
6. If your strength is depleted by your prayers.
7. If you resent the fact that your prayers haven't been answered in just the manner you expected.
8. If you find that the problem has been met only to return in a matter of weeks in the same or different form.
9. If you think that there are minds or influences greater than your own mind.
10. If you are treating for your personal good regardless of the good of the whole.

IMPERSONALIZE! GET YOUR (human concept of) SELF OUT OF THE WAY!

LET GOD WORK!
