

“HOLY IS THY NAME”

JEHOVAH
I AM THAT I AM
JESUS CHRIST

1. Christ is the activity of Truth in individual consciousness. The activity of this Truth in our consciousness is the Christ, the very presence of God. Truth received and continuously entertained in our consciousness is the law of harmony to all our affairs. It governs, guides, leads, directs and supports our every activity of daily existence. We must experience the Christ as a permanent and continuous dispensation. We must live in the constant conscious awareness of Truth active within. Maintain always a receptive attitude within—a listening ear—and soon you will experience an inner awareness. And this is the activity of Truth in consciousness, or the Christ attained.
—The Infinite Way, Joel Goldsmith
2. Every soul is an individualization of the Universal Being or All-Spirit which we call God, and that Spirit can never be shorn of its powers, but like Fire, which is its symbol, must always be fully and perfectly itself, which is Life in all its unlimited fulness. Christ Jesus—the type of Perfect Humanity—the first-fruit of the further evolution which is to complete the pyramid of manifested being upon the earth.
—The Hidden Power & Bible Mystery, Thomas Troward
3. Truth, Principle, the Absolute, we call “God.” This same Truth expressing as Man is “Jesus Christ.” This Conscious identity, through the I AM is the power of demonstration. Jesus Christ is perfect man.
—Max H. Ballard
4. There is a Jesus Christ Self in all of us. There is a God made manifest, revealing Himself, His nature, intention and Will in man. There is no evil in the Infinite; there is only His Glory. The Eternal One is too pure to behold iniquity. When we have come to being master-workers in the realm of Reality, evil shall be to us no more. When we have been with Jesus Christ, we see as He sees, speak as He speaks; and there is no gloom in our language or in our eyes.
5. The ministry of Christ is the Finished Fact which we work to realize. He who is aware of the completed and perfect work of Jesus Christ is also aware of the perfect world that is here at hand, and he lives in it. It may seem a great mystery to you, but it is true that your acknowledgment of the work of Jesus as having been done by His knowledge of Himself will uncover your own knowledge of your own soul. Then you will know that there is no duty in the Spirit. You automatically do the thing you are, like a flower.

live light; You will see that the whole world is alive with the life of the Spirit, and that you do not live in empty space. You will perceive that you live in solid intelligence, love, wisdom, and you will discover that everything responds to him who knows the Divinity of his own Soul.

—Mystical Teachings, H.B. Jeffery

6. The true Self of man is God, for since God is All in all and there in none else, man has no being but God. The Mind of God and Its Idea are one. For, since God is the only mind, there can be no thought or idea in it but what is God, and He Himself, all there is to think upon. Divine Man is identical with God. “I and my Father are One” says the Christ, the Divine Man. (John 10:30)
