
Summary of the First 9 Consecration Classes Based on Slightly-Edited Handout Excerpts:

All the great schools of spiritual wisdom are based upon the concept that there is in man the power to contact a Universal Creator, and as a result of this contact, able to acquire certain advantages.

In the series of lessons in Divine Science, we are undertaking to explain the law by which this contact is made a conscious and deliberate mental process and by which a Higher Consciousness may be developed.

There are two bodies or “I am” sense of identification that must be brought up at this time. Visibly there is a physical body and invisibly there is a Spiritual body. The primary purpose of these lessons is to present the Perfect Being or Perfect Life (the invisible body or the Christ) in man and to show how this Perfect Life is immortal here and now. And when we come to realize it as our own personal sense of identification, Truth, Light, Life and Power are added unto the visible man in abundance.

A clear, definite concept of the relationship is essential if we are to avail ourselves of its limitless Life, Power and Substance.

Now, man thinks and his thought falls into the Universal medium of creative activity and this medium, being entirely impersonal, responds to the thought (consciousness) of the individual in perfect harmony.

Therefore, from the standpoint of the Universal or Absolute, there is not God and man (Creator and creation), only God appearing as man (Universal Substance pouring Itself through the consciousness of man). (See previous paragraph.) Because there is only God and because God is Infinite—the All of everything—God must express and manifest as individual you and me.

Existence then, (visible manifestation, the observable universe) is not here on its own account, but is here because God the Creator is here, expressing Itself through man. Thus it is that we live, move and have our being in God.

The more steadfast you become in identifying yourself and others as the expressions of Infinite Substance instead of material substance, the more freedom and mastery will show forth in your daily unfoldment. There is a tremendous step-up in understanding whenever the individual can forget his so-called humanness and merely rejoice while abiding in the awareness of God, here and now.

The blessings (substance) of God [is] forever available. We take hold of [it] only in consciousness. We experience [it] to the degree that we realize our true identity with the Divine (with this infinite Substance).

Get this fully awoken in your consciousness: there is no law of any kind acting upon you. There is no power of any kind acting upon you. You are the law unto your body, home and business according to your sense of identification. “Nothing belongs to the Real Man but what God is.”

Now, Spiritual consciousness is the consciousness of wholeness. Therefore, when [an appearance contrary to your well-being presents itself to you], go quickly into that realm where all is love, peace and harmony. As quickly as possible enter into a meditation where you can “feel” your Oneness with God. Healing takes place at that point in consciousness where you are no longer aware of yourself but completely aware of God. In the highest Truth, there is not God and man, only God. God proceeding forth as man. God expressing as man, but that expression is always God.

Therefore, in the highest Truth, we do not give a treatment to someone or for someone, for the expression of God is already God-like, here and now.

“He who does the best healing is he who sees nothing to be done. He sees nothing to be done because he is seeing only God. He knows no other Creator and no other creation.” [And this takes place only in the awareness of God.] No two things can ever occupy the same place. Therefore, a consciousness imbued with God is saying, “There is none else.”

Realization of Pure Being or Pure Spirit is the only true healing. It is the result of a consciousness which knows Spiritual things Spiritually. Daily practice cannot be over-emphasized. Success in helping others will be in proportion to one’s daily living in Pure Consciousness. A Pure Consciousness sees no evil.

“...in order to receive (this realization). . . wait and listen for the inner voice. This inner voice is not an audible sound but a Spiritual pronouncement in the soul. It is the Infinite (God Himself) revealing Its Thought, Will and Plan to its own Beloved Child, to its own expression, to its own individualization—the individual soul.

“With the flash of one hurried glance I attained the vision of That which is. And Thou didst not give me any peace til Thou wast manifest to the eye of my soul.”

“The coming of the Kingdom of Heaven is not the end of the world, but the liberation of the individual soul. The Kingdom is the return of the soul to its original home and it usually comes gradually and not all at once. Every soul will eventually attain union with God, for in spite of so-called free-will, the individual manifestation must return to its true nature. The final purpose of God cannot be foiled.

“He will never suffer us to wander completely away. He will draw us back like a magnet.”

[At some point in time] man must realize that he himself is none other than the same Universal

Principle in [individualized] manifestation. We must think of God as That which demonstrates itself and that [man is that demonstration].

Now, let us consider some ways and means for getting. . .the personal sense of self out of the way . . . We learn to abandon everything in the way of dimensional, chronological and material reasoning. We arrive at last at a point where nothing is left but [God] declaring Its Divinity. [It is here that] the Christ. . .makes Itself felt and known in human consciousness.

“True prayer. . .is really not the human being which prays, but God praying through [pouring Itself through] the human being.

“As the branch cannot bear fruit of itself except it abide in the vine, no more can ye, except ye abide in me.”

Prayer or treatment [therefore] is our method of raising our consciousness above ordinary concepts of man and the universe. Remember, you are a Spiritual Being in God and are now in the Kingdom of Heaven.

Every soul is an individualization of the Universal Being which we call God and is never shorn of its power. Christ Jesus—a type of Perfect Humanity or Spiritual Man. (The ability to live in a Consciousness of God while on earth.) There is a Jesus Christ in all of us because there is a God making himself manifest, or revealing Itself in man.

The True Self of man is God for [the True Self has his origin in God and is expressing from God and has his being in His Substance]. [Therefore], God and His expression are one. It is the Christ that is saying, “The father and I are one.”
